SECURITY + COMPLIANCE ON TIME – ON BUDGET – ON DEMAND

Security and Compliance Delivered as a Service

For businesses today, managing IT security risk and meeting compliance requirements is paramount.

The past decade has seen an unprecedented wave of security breaches that have compromised the integrity of company-owned information - resulting in substantial financial and operational loss while devastating the confidence of customers, business partners and stakeholders. This tide of events has led to the establishment of technical standards, IT governance frameworks and laws designed to improve and enforce security - creating further pressure for organizations to define, control and govern their IT infrastructure more effectively.

Qualys' on demand approach to security and compliance enables organizations of all sizes to successfully achieve both vulnerability management and policy compliance initiatives cohesively, while reducing costs and streamlining operations.

Utilizing an innovative SaaS approach, the QualysGuard® Security and Compliance Suite incorporates Qualvs' industryleading vulnerability management service with a robust IT compliance solution.

Together in one easy-to-use security management platform, organizations can:

- Define policies to establish a secure IT infrastructure in accordance with good governance and best practices frameworks
- Automate ongoing security assessments, and manage vulnerability risk effectively
- Mitigate risk and eliminate threats utilizing the most trusted vulnerability management application in the industry
- Monitor and measure IT compliance in one unified console - saving time, assuring reliability and reducing costs
- Distribute security and compliance reports customized to meet the unique needs of business executives, auditors and security professionals

QualysGuard Security and Compliance Suite includes:

QualysGuard Vulnerability Management

Globally Deployable, Scalable Security Risk and Vulnerability Management

QualysGuard Policy Compliance

Define, Audit, and Document IT Security Compliance

QualysGuard PCI Compliance

Automated PCI Compliance Validation for Merchants and Acquiring Institutions

QualysGuard Security and Compliance Suite is available as an Enterprise Edition for large, distributed organizations and as an Express Edition for small to mid-sized businesses.

Integrated View of IT Security and Compliance

Understanding your overall security posture – and doing so in relation to compliance requirements – has historically been time consuming, costly to implement, difficult to manage, and limited in terms of cross-functional information use.

QualysGuard Security and Compliance Suite eliminates network auditing and compliance inefficiencies by leveraging your organization's core IT security information. In one consolidated suite, groups with different responsibilities can utilize similar information for their specific needs.

QUALYSGUARD[®] VULNERABILITY MANAGEMENT

Globally Deployable, Scalable Security Risk and Vulnerability Management

The core foundation of the QualysGuard Security and Compliance Suite is Qualys' award-winning vulnerability management application. QualysGuard automates all steps of the vulnerability management lifecycle process, enabling the immediate discovery of all devices and applications across your network while accurately identifying and helping you eliminate threats that make network attacks possible.

QualysGuard Vulnerability Management can be deployed in a matter of hours, providing customers an immediate view of their security and compliance posture. QualysGuard is the most widely deployed security on demand solution in the world, performing over 150 million IP audits per year.

QualysGuard Vulnerability Management enables you to:

- Discover and prioritize all network assets with no software to install or maintain
- Identify and fix security vulnerabilities proactively
- Manage and reduce business risk
- Ensure compliance with laws, regulations and corporate security policies
- Distribute remediation efforts via a comprehensive workflow engine
- Integrate with 3rd party and customer applications via extensible XML-based API

QUALYSGUARD® POLICY COMPLIANCE

Define, Audit, and Document IT Security Compliance

QualysGuard Policy Compliance extends QualysGuard's global scanning capabilities to collect OS Configuration and Application Access controls from hosts and other assets within your organization, and maps this information into policies, identifies violations for remediation, and documents IT policy compliances with regulations and mandates.

Together with the QualysGuard Vulnerability Management application, an organization can reduce the risk of internal and external threats, while at the same time provide proof of compliance demanded by auditors across multiple compliance initiatives.

QualysGuard Policy Compliance delivers:

- Identification of policy violations across all network assets with no software to install or maintain
- Automated, agent-less compliance auditing using the same QualysGuard infrastructure used for vulnerability scanning
- Comprehensive controls library based on CIS and NIST standards mapped directly to frameworks and regulations such as COBIT, ISO, SOX, Basel II, etc.
- Customizable auditing capabilities for multiple regulatory initiatives and mandates
- Detailed reporting tailored to the unique needs of auditors, IT security personnel, and business users

Automated PCI Compliance Validation for Merchants and Acquiring Institutions

QualysGuard PCI provides businesses, online merchants and Member Service Providers the easiest, most cost-effective and highly automated way to achieve PCI DSS compliance. QualysGuard PCI draws upon the same highly accurate scanning infrastructure as QualysGuard Vulnerability Management-used by thousands of organizations around the world to protect their networks from the security vulnerabilities that make attacks against networks possible. Qualys is an Approved Scanning Vendor (ASV), and is fully certified to assess PCI DSS compliance.

QualysGuard PCI is well-suited for any organization that must achieve PCI compliance, and is ideal for small and mid-sized businesses, consultants and other organizations that must:

- Protect cardholder information and keep networks secure from attacks
- Complete an annual PCI DSS "Self-Assessment Questionnaire"
- Pass a network security scan every 90 days by an approved scanning vendor
- Document and submit proof of compliance to acquiring banks

Pricing and Availability

QualysGuard Security and Compliance Suite is now available in both Enterprise and Express configurations. Pricing varies based on the number of users, IPs, and QualysGuard Intranet Scanners required. QualysGuard is sold as an annual subscription that includes unlimited scanning for a specific number of devices, 24x7 customer support, all maintenance and the cost of the scanner appliances.

About Qualys

Through its on demand security risk and compliance management solutions, Qualys makes it possible for organizations to strengthen the security of their networks and conduct automated security audits that ensure regulatory compliance and adherence to internal security policies.

Qualys is the only security company that delivers these solutions through a single Software-as-a-Service platform: QualysGuard. All of Qualys' on demand solutions can be deployed within hours anywhere around the globe, providing customers an immediate view of their security and compliance posture. As a result, QualysGuard is the most widely deployed security on demand solution in the world, performing more that 150 million audits per year.

Qualys has thousands of subscribers around the world including more than 35 of the Fortune Global 100 and has the world's largest VM deployment at a Fortune Global 50 company with over 223 appliances, distributed in 53 countries and scanning over 700,000 systems.

> **G** QualysGuard is a very good example of a product that we've been able to deploy and rely upon, and not have to worry about being its architects.

G QualysGuard helps us to make sure our network is secure and that our systems, and those of our customers, are hardened as well."

G QualysGuard has made the job of auditing our network much easier. Qualys takes care of that nightmare.

GualysGuard gives us the ability to detect our vulnerabilities across our network and really ensure that we have the level of security and compliance we need.
